

## Savings Opportunities...More to Come!

*The CSC has negotiated four systemwide savings opportunities for our colleges, universities, and the system office with more deals on the way! These contracts are the result of using modern procurement practices and leveraging our collective buying power. The result is discounted pricing and better value combined with new rebates and incentives that will be enjoyed by our campuses. Remember, the more we act as a system, the greater our savings.*

The CSC team & MN Dept of Admin meet at Harmon Place
