

Dual Credit Career Pathways for Alternative Learning Programs **December 8, 2015 | Normandale Community College**

Legislation passed in 2014 provides greater access to Postsecondary Enrollment Options (PSEO) for students in State Approved Alternative Programs (SAAP). This workshop is for SAAP educators, postsecondary partners and community stakeholders to learn how to develop, implement and support early/middle college programs. Learn how to create career pathways and wrap-around services to ensure student success in these opportunities. [Register online.](#)

Outcomes:

- Learn promising practices from a range of developing to established programs.
- Build a community of SAAP and MnSCU practitioners and leaders to support the implementation of early/middle college programs.
- Identify wrap-around support services and structures needed for student success in early/middle college programs.
- Develop administrative, academic and community partnerships needed for sequential career-focused programming.

Who Should Attend:

Participants will have various stages of knowledge or implementation of early/middle college programming.
